

HOW TO STICK STICKERS FROM BRICKSTICKERSHOP.COM

1

Cut out the "TOYOTA" sticker

2

Remove everything except "TOYOTA" from the backing paper

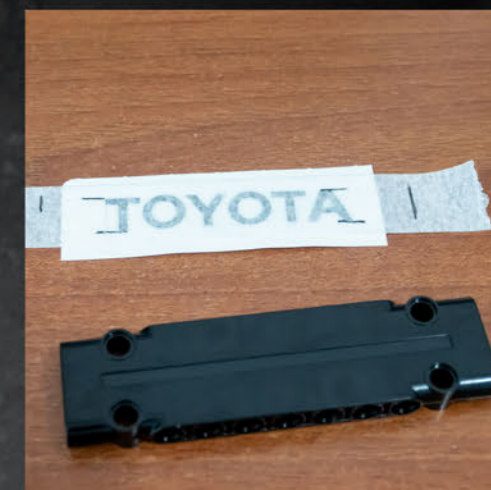

3

Stick the paper tape on top and as parallel as possible to the letters

4

Mark from "T" 1.5 cm to the left and from "A" 1.5 cm to the right

5

Put marks below and above the word "TOYOTA"

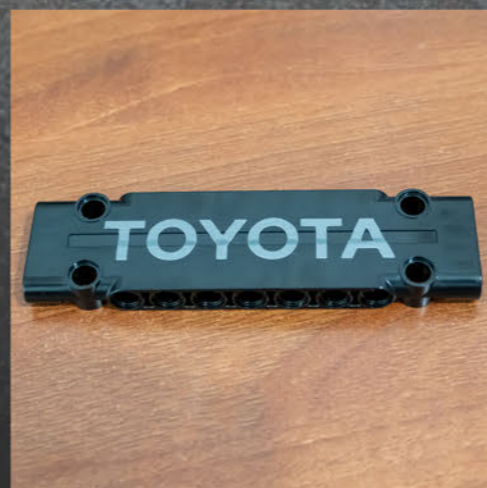

6

Remove the backing paper and apply carefully in the center of the panel. Use marks for adjusting

7

Peel off the paper tape carefully

8

Smooth each letter more firmly. Do not use alcohol or it will erase the ink

9

Install to the model

HOW TO STICK STICKERS FROM BRICKSTICKERSHOP.COM

1

Apply drops of water where you want to stick the vinyl. It will help to readjust the vinyl

2

Stick paper tape on top of one ring

3

Carefully remove paper tape with the ring

4

Place the ring on top of the wheel. Readjust if needed

5

Let it dry for 20 min. Remove glue residue if needed with alcohol

6

Place the tire carefully on the wheel

1

Place the tile firmly on a plate (any) so that it does not move. Same technique with water. Do not use alcohol or it will erase the ink

1

Place the tile firmly on a plate (any) so that it does not move. Same technique with water. Do not use alcohol or it will erase the ink

1

Place the tile firmly on a plate (any) so that it does not move. Same technique with water. Do not use alcohol or it will erase the ink

1

Use Dark Gray Tile from the Parts List for the dashboard sticker
